

The Library Planning Committee was formed to continue the development of the Library's Strategic Plan, a document that serves as a blueprint for both immediate and long-term improvements in library services.

Committee members are focusing on four key goals from the Strategic Plan:

1. Assure the Library is a Center of the Community.
2. Expand creative and innovative programs that meet the needs of the community.
3. Maintain a balanced collection that meets the needs of the community, represents all points of view and is accessible to all.
4. Assure library technology meets the needs of the community, is current and accessible to all.

As part of their work, committee members are conducting additional research through a community survey ([access here](#)) and by contacting local groups and organizations for their ideas and input.

Committee members include: Susan Calkins, Char Gretel, Barb Johnson (co-chair), Rowland Johnston, Nannette Miller, Kim Ranger, Matthew Rainey, Corinne Prabhaker, Amanda Rubert, Cathy Walle, Chris Weitschat, Chris White and Gera Witte (co-chair).
